An effective approach for figuring out a price is to ship out a survey to your current customers. If these customers have already purchased an e-book from you, ask for their opinion when it comes to price. Do this by creating a gross sales web page for the new e-book, but do not embody a worth on that page. As a substitute, add a lot of hyperlinks to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other technique is to check out prices by creating a variety of duplicate gross sales pages with different prices on every page. Make sure that your sales copy is exactly the same on every web page, and includes your selling-deal with sentence. Then determine for every page the conversion ratio between visitors to your website and sales of your book. This may let you know what your optimum value is.

Ultimately, if you've written a book that solves a problem or presents a new approach, your guide will usher in both traffic and profits.
