In addition to promoting your books assiduously online, there are several different strategies that can allow you to promote extra books.

One is to provide one thing away without cost along with your ebook, akin to a precious bonus item. Or bundle a number of ebooks under one value, which lowers the price for each e-book if they have been bought separately.

An efficient method for determining a value is to ship out a survey to your current customers. If these customers have already bought an ebook from you, ask for their opinion in terms of price. Do that by making a gross sales web page for the new book, however do not embody a worth on that page. As an alternative, add a number of hyperlinks to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

One other strategy is to check out prices by creating a number of duplicate sales pages with different prices on each page. Make certain your gross sales copy is strictly the identical on each web page, and includes your promoting-handle sentence. Then determine for every web page the conversion ratio between visitors to your site and sales of your book. This can tell you what your optimum worth is.

Finally, if you happen to've written a guide that solves a problem or presents a new technique, your book will herald both site visitors and profits. So you'll want to write that promoting-deal with sentence that sums up what downside your ebook solves and what the benefits of your 1760 guide will probably be to the customers who purchase it. And then watch your market come to you!
