An effective technique for determining a price is to ship out a survey to your present customers. If these clients have already bought an e-book from you, ask for his or her opinion when it comes to price. Do this by creating a gross sales web page for the new e-book, however do not embody a worth

on that page. As an alternative, add a number of hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

One other technique is to test out prices by making a variety of duplicate sales pages with completely different prices on each page. Ensure your gross sales copy is precisely the same on every web page, and includes your promoting-deal with sentence. Then work out for every web page the conversion ratio between guests to your site and gross sales of your book. This will tell you what your optimum price is.

Finally, if you've written a guide that solves a downside or presents a new method, your book will bring in each site visitors and profits. So make sure you write that selling-deal with sentence that sums up what problem your e book solves and what the advantages of your 1788 guide shall be to the purchasers who buy it. And then watch your market come to you!
