An effective method for figuring out a price is to ship out a survey to your current customers. If these prospects have already purchased an book from you, ask for their opinion when it comes to price. Do this by creating a gross sales page for the new book, but do not include a value on that page. As a substitute, add a number of hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

One other technique is to test out prices by creating a variety of duplicate gross sales pages with completely different prices on every page. Ensure your sales copy is precisely the same on each

page, and contains your promoting-handle sentence. Then determine for every web page the conversion ratio between guests to your web site and gross sales of your book. This may inform you what your optimum value is.

Finally, if you've written a book that solves a drawback or presents a new approach, your guide will bring in both site visitors and profits. So you should definitely write that selling-handle sentence that sums up what downside your e-book solves and what the benefits of your 2523 e-book will likely be to the customers who purchase it.
