An effective technique for figuring out a price is to ship out a survey to your current customers. If these prospects have already purchased an ebook from you, ask for their opinion when it comes to price. Do that by creating a gross sales web page for the new book, but do not include a value on that page. As a substitute, add quite a lot of hyperlinks to survey questions that ask pointed questions to aid you in assigning a price to your ebook.

Another strategy is to check out costs by making a variety of duplicate gross sales pages with completely different prices on every page. Make certain your sales copy is exactly the identical on every page, and includes your selling-handle sentence. Then determine for every web page the conversion ratio between guests to your website and sales of your book. This can tell you what your optimum value is.

Ultimately, if you've written a guide that solves a downside or presents a brand new approach, your ebook will herald both traffic and profits.
