Apart from promoting your books assiduously online, there are several different methods that may show you how to promote more books.

One is to offer one thing away without cost along with your e-book, akin to a invaluable bonus item. Or bundle a number of ebooks underneath one worth, which lowers the value for each book in the event that they had been offered separately.

An effective approach for figuring out a price is to ship out a survey to your present customers. If these clients have already purchased an e-book from you, ask for his or her opinion by way of price. Do this by making a sales web page for the brand new ebook, but don't embrace a price on that page. Instead, add a variety of links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another strategy is to check out costs by creating a number of duplicate sales pages with totally different prices on each page. Make sure your gross sales copy is strictly the similar on every web

page, and includes your selling-handle sentence. Then determine for every web page the conversion ratio between visitors to your web site and sales of your book. This may tell you what your optimum worth is.

Ultimately, when you've written a book that solves a downside or presents a brand new method, your guide will bring in each traffic and profits. So be sure to write that promoting-handle sentence that sums up what drawback your ebook solves and what the advantages of your 915 e book will probably be to the customers who buy it.
